KEISER[®]
UNIVERSITY

FLORIDA, USA.

JOIN TO MAKE YOUR DREAM A REALITY

Our mission is to provide excellent academic opportunities to help produce dynamic students who will have a broad knowledge, be leaders in their prospective professions, critical thinkers and creative individuals; who will be able to operate in any environment and will have the ability to respond easily to rapidly changing needs of their professions

WELCOME TO THE AMERICAN COLLEGE OF HIGHER EDUCATION

Established in 1995, the American College of Higher Education has grown to be one of the finest higher educational institutions in Sri Lanka offering American degrees.

The American College of Higher Education (ACHE) is an international center of Keiser University, USA and is strategically located in Dehiwela just outside the Colombo City limits, ensuring easy accessibility and an environment conducive to learning.

The American College has two flagship campuses in Dehiwela and Kandy and three campuses for outreach programs in Kurunegala, Negombo and Galle to meet the needs of students outside of Colombo with an American style education. A branch campus is located in the hill capital of Kandy, where the combination of scenic beauty and a cooler climate offers students an ideal academic atmosphere. Students in southern Sri Lanka have access to our Galle ACHE branch. Another branch campus is located in Negombo just off the main Colombo - Negombo Road. Another center of the ACHE is in the historic city of Kurunegala, located along the Colombo Kurunegala main road.

The ACHE is committed to the students' academic and personal development, and dedicated to the students' future. Whatever part of Sri Lanka you reside in, an affordable and quality education at the ACHE is not far away.

WE ARE RECOGNIZED

American College is an International Center of Keiser University, Florida, USA, and is approved by the Southern Association of Colleges and Schools, Commission on College **(SACS -COC) USA.**

STUDENT TESTIMONIALS

★ D. Nuwani Bamunusinghe

Transferred to : Winona State University MN, USA.
Majoring : Majoring in Elementary
Education and Teaching
Scholarship : 6732\$

American College is the main reason that I'm here today. Since I can remember, I've always wanted to study abroad and settle down. However, I was lost as to how to achieve this dream of mine. But once I came across this degree program and the opportunities that presented to me, I knew right away that this was it. I will always be grateful for ACHE for creating this pathway for me.

★ Ashan Malinda Perera

Transferred to: Florida State University, USA.
Majoring: Mechanical engineering

ACHE has presented a great opportunity for me as a student planning to earn a degree in the United States. It allowed me to start my college-level education right after completing my local Ordinary Level examinations, enabling a smooth transition to U.S. academic standards and early access to college level educational resources. After completing my AA degree through ACHE, I entered Florida State University, where I have had an enriching and rewarding academic experience.

★ Savindi Tennakoon

Transferred to : South Dakota State University, USA.
Majoring : Nursing
School : Hillwood College Kandy

I am glad to say that I am a proud product of American College of Higher Education, the best place to acquire outstanding learning experiences for a long lasting education journey. I'm proudly addressing ACHE as the supreme shelter, where it provides the most exciting educational, cultural, social activities which added a vast range of personal skills to my life which helped me a lot to explore new knowledge in USA and to become who I am today.

TRANSFER PROGRAM

TRANSFER OF CREDITS

A unique characteristic of American higher education is the transfer system, which allows credits subjects from one institution to transfer to another. It is not uncommon for students to transfer two or three times while studying for an undergraduate degree. The credits earned by the American College students are recorded on a Keiser University transcript. These credits can be transferred to most of universities in American and elsewhere and will count towards an undergraduate degree. The American College will assist students in finding admission at the appropriate universities. Since many American College students take classes during the summer semester as well, they are able to transfer to the US and other countries in less than two years usually in 10 months.

THE TRANSFER PROCESS

Credits earned at one institution are transferable and acceptable as credits towards a degree at another institution. Colleges and universities in the United States will generally accept credits from other institutions as long as the student has earned a "C" grade or better in the subject.

CHOOSING A UNIVERSITY

Choosing a university in the USA to complete a degree is a personal matter and depends upon the needs of the student and requirements of the university. Therefore the American College places great importance on guiding and assisting students with the transfer process.

Students wishing to apply to degree-granting institutions in the USA must meet their respective entry requirements. The American College provides advising and counseling to all transferring students and helps them with the paperwork involved. Students are advised to follow the recommendation of the American College when making their decisions as to where to transfer. Expert information is necessary to make this decision and this information is best obtained from the staff of the American College who have had years of experience transferring students abroad.

THE PATHWAY TO YOUR DEGREE

The American system of education is unique in that all students irrespective of his/her major are given the opportunity to experience a few subjects in a variety of discipline. The students be major may Bio Science, Business, Engineering, Computer Science or even Hospitality Management - but the student is required to take 1 or 2 subjects in areas such as the Humanities, Social Sciences, Natural Sciences, Mathematics, English, Foreign Languages, Computer Studies etc. This in turn realizes the American concept that every person should have some knowledge of the world around him in order to be a totally educated individual. The 'course planner' gives students an idea how to choose and plan the pathways to obtain their degrees.

THE FAST TRACK PROGRAM

The American degree usually takes 4 years to complete. However, most of the students at the American College of Higher Education, Sri Lanka complete their degrees in 3 years by taking advantage of the large number of course offerings each semester and by taking around 12 credits in the summer semester as well. Also students who join the American College after their 'O' Levels at 16 years of age have an added advantage of obtaining their degree by the time they are 19 years old and starting their careers early.

TRANSFERRING TO CANADA

Since Canadian Universities follow, except in a few cases, a system similar to that of the USA, it is relatively easy for students to transfer to Canada. A growing percentage of students are showing interest in Canadian universities, and a number of our students have transferred to York University, University of Ottawa, Simon Fraser University and University of Windsor.

TRANSFERRING TO OTHER COUNTRIES

On completion of the American university some students have transferred to UK, Australia, New Zealand, UAE, Malaysia, Singapore, Japan etc. and most of the coursework they had. Completed were accepted towards a bachelor's Degree there.

HOW DOES THE TRANSFER PROGRAM OF THE AMERICAN COLLEGE OF HIGHER EDUCATION **BENEFIT THE STUDENTS?**

- ▲ Of the 4-year American degree, study 2 years in Sri Lanka and transfer to the USA to complete the final 2 years.
- ▲ American College of Higher Education is the only U.S. education provider in Sri Lanka approved by a U.S. regional accrediting body, the Southern Association of Colleges and Schools, Commission on Colleges (SACSCOC), to offer an accredited USA university transfer program.
- ▲ Save almost Rs. 20 million by studying for 2 years of a U.S. degree in Sri Lanka at American College.
- ▲ Earn a world-recognized Associate Degree conferred by Keiser University, USA, in your field of study when you complete 2 years at the American College, Sri Lanka.
- ▲ Students who enroll for degree programs at the American College are simultaneously registered at Keiser University, Florida, USA, and become Keiser students.
- ▲ Enrolled students take the same US curriculum as Florida students while attending Keiser University classes in Sri Lanka.
- ▲ Keiser University Associate Degree is recognized by many countries such as Canada, the UK, Australia, New Zealand, and Malaysia for university admissions and credit transfers.
- ▲ Keiser University issues ID cards, PIN numbers, and Keiser email addresses to American College students so they can have the same privileges as students enrolled in the USA.
- ▲ Students will be issued a Keiser transcript and a Keiser University Associate Degree (2 years). The Keiser degree is recognized worldwide. Students can start degrees in Engineering, Biological Sciences, Psychology, Data Sciences, Business, Computer Science, and more while at the American College of Higher Education.
- ▲ Students can transfer to over 4000 universities and colleges in the USA and other countries, or to Keiser University itself, to pursue their higher studies.
- ▲ Students transferring to Keiser University will be granted a US\$16,000 scholarship per year.
- ▲ Students with good grades may qualify for many transfer scholarships ranging from US\$4,000 to US\$32,000 per year from many US universities.
- ▲ Students will have access to millions of books, journals, video clips, and other resources at the Keiser Learning Resource Center.
